Cor-Ban 22

Description

Cor-Ban 22 is an aerosolized version of the Cor-Ban 27L, (BMS 3-38). This product is designed to be a long lasting, high penetration, water displacing, corrosion inhibiting compound. The finished coating is soft and self healing.

Application

The product can be applied by conventional airless or air-operated spray equipment.

The coating should be applied at 1 mil film thickness. Aerosol application is

available. All properties represented were achieved with a wet film thickness of 1.0 mils. One aerosol can covers approximately 90 ft².
