## D-5015NS Avionic Corrosion Preventive Light Soft Film - Zero Ozone Depleting (Mil-C-81309 Type III Class 2)

**DESCRIPTION** Zip-Chem D-5015NS is a light duty version of D-5026NS. This product provides a light, soft, ultra-thin film with moisture displacing properties. This corrosion preventive is specially formulated to use on highly critical metal surfaces. D-5015NS is specially suited for short term lubrication lasting up to one week.

**APPLICATION** D-5015NS displaces water from electrical and electronic components and provides a thin protective barrier coating that helps prevent corrosion and fungus growth. Excellent for "overnight" tooling protection on highly critical surfaces.

**FEATURES**

- Safe on most paints, plastics or insulation.
- Light, soft film provides lubrication for moving parts.
- Ideal for in field service use.
- Excellent for electrical and electronic components.

**SPECIFICATIONS** Mil-C-81309 Type III Class 2

**PHYSICAL PROPERTIES**

**Flash Point:**None  
**Boiling Range:**-22 to 375 °F.  
**Vapor Density:**Heavier than air  
**Specific Gravity (H2O=1):** 0.9  
**Evaporation Rate:**Faster than ether  
**Material V.O.C.:** 514g/l

**PACKAGING** Aerosol, quarts, gallons, 5 gallons, drums
